Deputy-Governor Spriggs Takes the Reins in His Own Hands.

[A. P. NIGHT REPORT.]
 SHINGTON, May 15.—Mr. Clark
 ontana fairly swept the Senate
 surprise today, by a formal an-

ment that he had sent his resignation as Senator to the Governor of Indiana. The announcement came without previous notice, and probably half a dozen persons in Washington

The Times

WEATHER YESTERDAY.

Los Angeles, May 15.—(Special Correspondent.) The State Convention of Universalists adjourned yesterday, after four days' interesting sessions, during which much was accomplished. Sunday was the crowning day of the gathering, and was opened with a sunrise prayer meeting on the heights above the home of Hon. C. H. McKeeth. Forty delegates attended this service. Later the Sunday-school held session, and an address was delivered by Prof. A. H. Chamberlain of Thorpe Polytechnic Institute, Pasadena. He applied many of the principles of the new education to the Sunday-school, contending that the uniform lesson encouraged machine methods.

Communion was celebrated at 10:30 a.m. by a large audience. Dr. Conger and Rev. L. M. Andrews were the celebrants. The morning sermon was delivered by Rev. Ralph Conner of Pasadena, his leading thought being centered in the words of St. Paul: "Prove all things; hold fast that which is good." All the afternoon addresses were devoted to the "forward movement." In the evening the church was again filled by Rev. P. T. Scott, Pomona; Rev. S. Gibb, Iowa; Rev. L. M. Andrews, Pasadena; and Rev. L. M. Andrews, Pasadena.

The Sunday-evening session was devoted to the exposition of the new statement of faith adopted at the Boston convention last fall. Dr. Conger presided and said to the large audience that for twenty years it had been a warmly-discussed question as to how to amend the old creed so that it would be satisfactory to all. The problem had been happily solved, he said, by preserving the old, intact and unimpaired, for those who love it, and adding a new but simpler one which contained five fundamental principles of Christianity on which could unite. These five truths were then discussed as follows: "The Universal Fatherhood of God," E. E. Spaulding; "The Spiritual Authority and Leadership of His Son, Jesus Christ," Rev. P. T. Scott; "The Trustworthiness of the Bible as Containing a Revelation from God," Rev. J. W. Hanson; "The Certainty of Just Retribution for Sin," Rev. S. Gibb; "The Final Harmony of All Souls with God," Rev. C. H. Shinn, D.D.

STIMMONS-LAFAYETTE SCHOOL. LARGELY-ATTENDED RECEPTION AT INDUSTRIAL INSTITUTION. The annual reception given yesterday afternoon by the Stimmons-Lafayette Industrial School at the school building on the corner of Jackson and Lafayette streets, was largely attended by people interested in that institution. The school was handsomely decorated throughout.

A musical programme was rendered in the afternoon, to which the following well-known musicians contributed numbers: Mrs. Sheldon Jordan, Miss Oliver and Messrs. Wilde and De Puy. Afterward an exhibition in cooking was given by the cooking classes. The menu included from fifty to sixty members, who are doing excellent work, and girls of limited opportunities are taught to understand domestic economy. One of the rules of this institution is that \$100 yearly shall be paid for every child who goes into the school as a regular pupil. Often this sum is paid by some charitable-minded merchant or citizen who desires to help some poor girl to a practical education. The school was founded by Mrs. T. D. Stimmons, who gives \$500 annually toward its support. The officers are: Mrs. A. Hinn, president; Messrs. Andrew P. West, treasurer; Miss Florence Jones, recording secretary; Mrs. M. G. Bell is matron and Miss MacDermald is cooking instructor.

In the evening the Stimmons-Lafayette Woman's Club held a reception at the school. A musical and literary programme was rendered and an exhibition of the school work was made.

WEEKLY CROP BULLETIN. The climate and crop bulletin of the Weather Bureau, United States Department of Agriculture, for Southern California, says that warm, fine growing weather prevailed the first of the week, followed on Thursday and Friday by a general rain, which caught much mown hay in the fields and damaged a considerable portion of it. Orchards, sugar beets and late grain were greatly benefited by the rain, and in the northern sections bean planting is in progress. The ground is well soaked and orchardists are busy crocheting with the soil in fine condition for working. Streams are running full, so far as reported, and irrigation water abundant. Delicious trees continue slow in leafing, and the crop in places will be below the average, particularly peaches and apricots. The honey prospects have been greatly improved by the rains; while crocheting is blooming freely making the best showing for a crop for several years. Oranges have set well, and there is little dropping. Stock in the southern mountain sections is in fine condition.

NEW YORK CENSUS. WORK OF TAKING IT WILL BEGIN JUNE FIRST. (A. P. EARLY A. M. REPORT.) NEW YORK, May 15.—Charles A. Wilber, superintendent of the census, has begun to swear in the census enumerators. A number of teachers who are to tell the men just what to do and how to do it best will also be sworn in this week, and the work of taking the census will begin June 1. The instructors will visit the enumerators in their homes and explain to them all the details of asking the many questions that are to be answered by the people they go to see in their homes for data as to the city's growth and population. There are to be about 100 enumerators of the city. In addition to these, there will be 100 interpreters and fifty special enumerators. The duty of the latter will be to get information about the persons who are not found at their homes by the regular enumerators.

It is thought the entire work will be completed by June 15, which is the date set for the final reports of the enumerators.

HOW ABOUT THAT

New Suit! Why not wear in today? We've got a lot of extra good workmen on our staff and can turn out a suit that will be a work of art. The difference between the price of our suits and the cheap tailor's is merely a matter of labor. We can't afford to turn out poorly-made garments. Still we make high-class suits from \$25 up.

Everyone is Buying Light Weight Shoes. We never saw them go faster. Perhaps it's because the weather has turned so warm. Perhaps it's because we've fixed the window with some new ideas in summer shoes. They're both high cut and low cut, tan and black, men's and ladies' but they're all tasteful—so cool and light, so fresh and so happy. There's a strong argument on each price ticket.

POLICE STATION REPAIRS.

Many Improvements in and About the Building.

Other Needed Changes—Noisy Condition Payment Balance.

Driver Johnson is very busy and happy, and it is all on account of the renovation of the base of the Police Station where the patrol drivers, who are for the most time quartered, are now in great comfort because of the improvements that have been made. He suggested a number of them, and with the aid of a few of his fellow drivers and City Jail trustees, they have been made into effect.

The City Jail proper was thoroughly renovated and repainted some time ago, and the improvement of the then day was not only a matter of the cleanliness of the building, but with all the cleanliness, making fumes permeate the air from the stable below. It was not until the day patrol driver on his duty that he got about putting the Police Station into as good a condition as the upper part of the building.

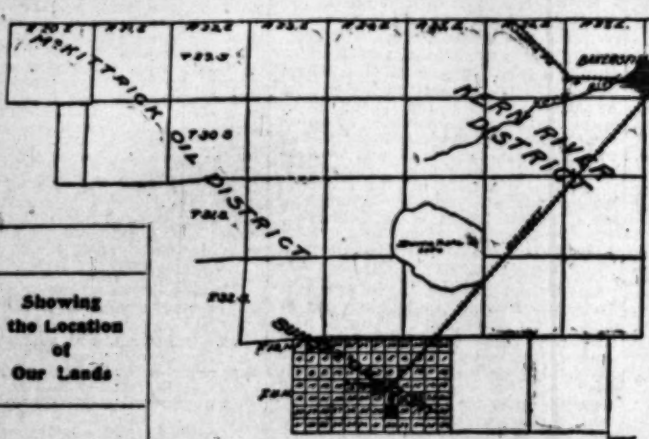

The old place the old catch basin in the basement which had so long been a nuisance to the health of the officers of the jail and a stench in the air. This was done soon after the City Council having authorized the City Engineer to make certain necessary alterations and repairs in the station building. Driver Johnson then undertook the renovation of the stable. The whole basement was thoroughly cleaned out and the floor was made smooth and level. The place is now a clean and wholesome one, and the work being done by the officers without any appreciable cost to the city.

The old wooden steps at the rear entrance to the jail office have been replaced with concrete stairs that make it easy and agreeable for persons arriving and departing in the patrol wagon. The improvement promised some time ago, which has not yet materialized, is to have the patrol wagon equipped with rubber tires for the patrol drivers. The wagons, which are also used for hospital ambulances, have yet had their springs lightened and altered, as had been promised, so as to make the hand-carrying persons easier and more comfortable.

Other complaints about the Police Station should receive attention from the City Council is the cobblestone pavement in front of the police station. The dirt made by vehicles passing the Police Station is almost impossible for the police to do business at certain times of the day. The rumble of the granite blocks drives the patrol drivers mad, and greatly retards their work. Traffic on the cobblestone nuisance is more and more every day. Patrol wagons are obliged to drive the rough cobbles in the hospital calls, much to the discomfort of the patients. The fire headquarters are on the cobblestone, and there is an ever increasing danger of fire. It is imperative the advisability of changing the granite pavement to asphalt, or taking up the cobblestone and putting down a section of First street with a layer of material.

PARAGRAPHS.

New Electric Motor.

E. M. Andrews of Des Moines, Iowa, son of J. Q. Andrews of this city, has invented an electric motor which, the State Register says, will produce three or four times the power of any of the old motors, with less than half the current.

Will Nominate Directors.

There will be an open meeting of the members of the Los Angeles Athletic Club this evening, at which time nominations for directors to be voted for at the annual election following will be made.

Boys' Debate.

The Boys' Debating Club of the commercial school of the Los Angeles High School had a wide-awake session yesterday afternoon, debating the question of "whether the negro should be deprived of suffrage—a dead issue for lively boys."

Alleged Letter Dealer.

E. Cohn, proprietor of a cigar store at 115-117 South Spring street, was arrested by detectives last night on the charge of selling lottery tickets. He will be arraigned before Justice Morgan this morning at 9 o'clock.

Burning Pitch.

A flood of burning pitch at the asphaltum refining works in the vicinity of Alhambra avenue and Bloom street, caused an alarm of fire to be rung in at 7 o'clock yesterday morning. A broken stockpile allowed some liquid asphalt to escape from a tank, and it was ignited while flowing on the ground. The blaze was extinguished without the assistance of the fire department.

No Shock the Dust.

John H. Ryan, a tough-looking young fellow who was pulled from a Southern Pacific blind baggage by two detectives several nights ago and convicted in the Police Court of carrying a concealed weapon, has gone to the city jail for Los Angeles. His excuse for carrying a big gun was that he was a traveler going through the city and was attempting to leave when arrested. He looked like a typical hold-up man, and the police kept him in jail for several days, while they attempted to work up something against him. They were unsuccessful, and the court sentenced him to pay \$5 or serve twenty-five days for carrying a revolver. While working through the city and was yesterday, Ryan showed his heels to the officers, and although they attempted to bring him to the city jail, he escaped over his head, he succeeded in making his escape.

NEWS AND BUSINESS.

Remember the needy. Save your out-of-pocket clothing, bedding or stoves for poor families of the city. A request is also made for shoes and clothing for poor children. There are many poor families in need of wholesome food, and relatives, friends, or neighbors, or canned fruit will be most thankfully received. Drop a card to Fred Vignette, the "Good Samaritan" (formerly Capt. Fraser's place), No. 138 East Seventh street, and anything you have to donate will be appreciated.

There is only a small block of the Golden West Cigar Company stock left at 15c a share, and on or before Saturday, May 13, it will advance to 20c a share; all who want to get in on the ground floor, at 15c, should act quickly.

WOMAN'S AUXILIARY.

Missionary Day at the Annual Episcopal Meeting.

Large Gathering of Ladies—New Officers—Coming Events.

The fourth annual meeting of the Woman's Auxiliary of the diocese of Los Angeles was held yesterday in St. Paul's Pro-Cathedral on South Olive street. Over 250 delegates from the parishes of Southern California were in attendance.

THE MORNING SERMON.

Religious services occupied the entire forenoon yesterday. The Holy Eucharist was celebrated by Rt. Rev. Bishop Joseph H. Johnson. Rev. W. H. Watson of Santa Ana preached the morning sermon. He said:

"It is a most difficult matter to impress upon members of the auxiliary in some places the necessity for individual work. Each one should know that she has a certain work, and that she is held personally responsible by her Maker for that work. In many cases it requires a large part of the time that the officers should devote to the regular work of the auxiliary, to instruct new members, to help the work of the organization. Some people are always ready to absorb all the spiritual life and force that can be put into them, and yet are never willing to pass this life on to other needy ones. It is hard to try to impart life and sap to a dead tree. Perhaps the clergy is somewhat to blame for this, but it is not their fault. We build up the work of the church over which we are placed, and then, as an afterthought, perhaps, the auxiliary is added. Of course, under such circumstances, the index of the organization is at a low ebb, and the people of the parish will give but sparingly to its support.

"We to those who, having received the light of Christ, refuse to share their share in purifying others. Because there is more light at the present time than there was in former times, we should be more ready to share our light with others. Praise God, if you wish for your goodly heritage, but forget not the responsibility which comes with it. You say it is a small part you have to do in your little branch of the auxiliary, but if you look upon it as a part of the work of God, I do not understand how you can believe it small. God's measurements are not our measurements.

"A noon-day prayer meeting for missions was held at 12 o'clock. Lunch was provided for the visiting delegates by the ladies of the local parishes.

AFTERNOON SESSION.

The afternoon session was held in the St. Paul's Parish Hall. Bishop Johnson announced the list of officers for the present year as follows: President, Mrs. T. E. Elsen of Los Angeles; vice-president, Miss J. D. Towell of Los Angeles; secretary, Mrs. H. D. Knox of Santa Barbara; vice-secretary for San Diego county, Mrs. D. J. Patten of Redlands; vice-secretary for Los Angeles county, Mrs. J. E. Cowles; recording secretary, Mrs. Lucy Spencer; corresponding secretary, Mrs. George Hughes; treasurer, Mrs. J. E. Elsen; secretary of the church missions, Dr. Anita Tyng of Pasadena; treasurer, Mrs. Joseph Butler.

Reports were presented from those in charge of the following branches: Church of the Good Shepherd, an address on the work of the church in Japan.

PRESIDENT'S ADDRESS.

After the heads of the various departments had made their reports, Mrs. T. E. Elsen, the president of the organization, delivered her annual address. She said:

"Only four years ago was held the first meeting of the organization of this society. We then laid the foundation of the work we were to be conducted on simple lines side by side with the larger work of the newly-founded diocese of Los Angeles. Let us trust that this organization will inaugurate the advent of its fifth year with still more resolve and more for a more advanced method of missionary propaganda.

The watchword of the day is 'Work.' Let each garment we make for our missionary boxes speak of love—each contributor to the work of the church. We shall truly feel that it is more blessed to give than to receive. Let us lend enthusiasm to the love we bear toward mankind, so that we will be following where He has led, glad enough to be doing the work which we are pledged to do by our membership in this auxiliary.

"A great many people will tell us that the Chinese will never become a Christian nation. Yet in 1882 the first missionary was sent to China. Of course it is slow work. God never does things in a hurry. Our missionary orders are to go forward into the world. The Woman's Auxiliary is true to its share of the work. We have an instance in the work of our recent shipment to the Alaska missions. Nineteen boxes of goods and two large boxes of offerings from the women of this diocese is a satisfactory and gratifying record. Our special work has been for Alaska and Shanghai, and for laborers among the Indians and negroes.

"Now the future is before us. Let us be full of courage to go forward. Let us pray that to many hearts may come the desire to serve in His work, to bear each other's burdens; and to fulfill the law of Christ."

EVENING MEETING.

A missionary mass meeting was the concluding event of the day devoted to the work of the Woman's Auxiliary. The cathedral was crowded. A brief prayer service was held. Rev. W. H. Watson of Santa Ana preached the evening sermon. The subject of the paper by Rev. Milton Dotson of All Saints' Church, Riverside, D. C. Narver of Los Angeles spoke on "The Responsibility of the Women to Missions."

COMING EVENTS.

The convention of the clergy and laity will begin this morning. A morning prayer service will be held. Rev. William H. Ramsey of Santa Barbara will preach a Holy Communion sermon. At the afternoon session of the convention the leading feature will be an address by Bishop Johnson. He will speak about 4 o'clock. Among other subjects he will treat on "Marriage and Divorce."

"Now the future is before us. Let us be full of courage to go forward. Let us pray that to many hearts may come the desire to serve in His work, to bear each other's burdens; and to fulfill the law of Christ."

A HANDSOME MEDALLION.

UNION LEAGUE.

SPEECHES TO BE HEARD ON LIVE SUBJECTS—NEW MEMBERS.

There was only a small attendance at the meeting of the Union League last evening, due largely to the fact that there was no important business to be taken up. With a view to creating more interest in future meetings of the league, the House Committee was instructed to arrange programmes providing for addresses by prominent local speakers. For the meeting to be held June 5 it is expected that some local speakers will speak on the new primary law. There will be addresses on other live subjects.

Among other matters taken up last evening was the election of the following to membership in the league: George L. Keeler, Orrin Z. Hubbard, Fred Zuker and Dr. Ralph Hagan.

A vote of thanks was given to Daba Burke, Thomas Hughes and J. Francis for late electric signs donated to the league, which was used at headquarters during the convention of the California League of Republican Clubs.

The last meeting of the local Executive Committee of the California State League of Republican Clubs will be held next Friday evening in the hall of the league. At this meeting all business connected with the recent convention will be cleaned up. Of the large subscription promised there remains but \$40 to be collected, which is considered a remarkable record.

The sub-committee which had in hand the report of the recent convention, decided to issue, in pamphlet form, the proceedings of the recent convention. It is the intention to have 20,000 copies printed, to be distributed throughout the United States.

RECEIVING HOSPITAL CASES.

Ernest Conklin, No. 139 South Avenue 22, got the index finger of his left hand mangled in a bicycle chain yesterday forenoon, and then called on Police Surgeon Hagan for repairs. The injured digit was stitched up.

Ernest Conklin, No. 411 1/2 North Main street, went to the hospital at 1:30 p.m. While shoeing a horse he sustained injuries to the index and second fingers of his right hand. John H. Melvin, who lives near the Santa Fe station, was treated last night for a severe wound on his left foot, crushing the big toe.
